CONFERENCE OF FACTORY OFFICERS

CANBERRA, 26TH TO 30TH OCTOBER, 1953.

Report of Proceedings

The Conference was opened at 10.30 a.m. on Monday, 26th October, 1953, and Factory Officers were welcomed by Mr. J.P. O'Neill, Supervisor of Compiling who, at the request of the Acting Commonwealth Statistician, occupied the Chair for the duration of the Conference.

Particular welcome was accorded to Messrs Moore (Tas.) Sales (Comm Sydney) and Lucchinelli (Comm. Melbourne) who were attending their first Conference of this nature.

Special attention was paid to comments and suggestions from Western Australia and Conference expressed disappointment at the absence of a Western Australian Representative from two successive Conferences.

Personnel present were:-

Chairman : J.P. O'Neill

Factory Officers

Commonwealth	:	C.L. Walters
New South Wales	:	G. Green
Victoria	:	P. Collins
Queensland	:	R.A. Nimmo
South Australia	:	W.T. Kelly
Tasmania	:	H. Moore

Monthly Production Officers (a)

Commonwealth (Sydney)	:	L. Sales
" (Melbourne)	:	R. Lucchinelli

(a) Without voting power on Annual Factory matters.

Observers

V.T. Chapman	:	Asst. Supervisor Sec. Prod. Branch
J. Miller	:	representing Development Branch.

Mr. R. Lakin (Acting Supervisor Primary Production Branch) was invited to join in certain discussions and Mr. I.G. Jones (Supervisor, Development Branch) attended the discussions concerning Forms 3 and 40 (Timber Statistics).

Hours of meeting were determined as :-

9.00 a.m. to 12.15. p.m.  
1.45 p.m. to 4.30 p.m.

The printed Agenda was varied in order that a decision might be reached in respect of the matter raised in Supplement "A" (Principles governing retention or deletion of Raw Materials). It was decided that States should use this as a guide and that the Commonwealth prepare a list of Raw Material items where little or no detail is shown providing explanatory notes and furnish this list to States. Later it was decided that the list be extended to embrace articles Produced.

Decisions reached by Conference are set out on the attached sheets and items marked with an asterisk (\*) were those raised as "late" suggestions (Agenda item 8).

It was decided that to suit the convenience of the majority of Factory Officers it would be preferable to hold subsequent conferences in the month of July when practicable. This was endorsed by the Conference of Statisticians as also were the proposals re Mineral Oils (Form 10), Plastic Moulding (Form 20), and the new forms for Glass Works and Coke Works (Form 39) and Animal Foods (Form 42).

The recommendation concerning "metal usage in factories" was unanimously endorsed by Conference of Statisticians.

37		Complete recasting as suggested by Electricity Supply Ass/n. of Australia	Factory Officers reaffirmed previous decisions to exclude Heat, Light and Power completely from Factory Statistics but in the event of Statisticians deciding against this proposal or deferring its implementation it is recommended that the collection from Electricity Undertakings be extended to embrace details of distribution etc., in an endeavour to satisfy the requirements of the E.S.A.A. Further, that in the event of Electricity Undertakings being retained in Factory Statistics, all generating stations whether generating by Thermal, Hydro or other means should be included and that they should all be classified as Factories.
